

# Sprint 3 Plan

**Heading:** TutorTube, Team TutorTube, Sprint 3 completion date: March 17, 2017, revision 1, 3/2/17

**Goal:** Create a login page and a user database so users can login and control their accounts.

**Task listing, organized by user story:**

User Story 1: As a user I want to upload video or text responses so that I can help other students in my class understand the material

Task 1: create hyperlinks to posts and responses to each post (2 hours)

Task 2: make a new html and controller for comments to posts(4 hours)

Task 3: update database so comments can be children of other comments(5 hours)

Total time for user story 1: 11 hours

User Story 2: As a developer I want to be able to implement a chat room so that small group discussions can exist

Task 1: research code online that could be helpful(3 hours)

Total time for user story 3: 3 hours

User Story 3: As a developer I want to be able to style my website so that it is understandable and easy to use

Task 1: style using css and html(5 hours)

Task 2: separate posts by categories(4 hours)

Task 3: make a logo(2 hours)

Total time for user story 4: 11 hours

Total time for sprint 3: 25 hours

**Team Roles:**

Evan Hobbs: user

Haley Emerson: user, developer

Lisa Durand: developer, user

Vanessa Putnam: developer

Aishni Parab: developer

### Initial Task Assignment:

Evan Hobbs: user story 1, create hyperlinks to posts and responses to each post;  
user story 1, make a new html and controller for comments to posts

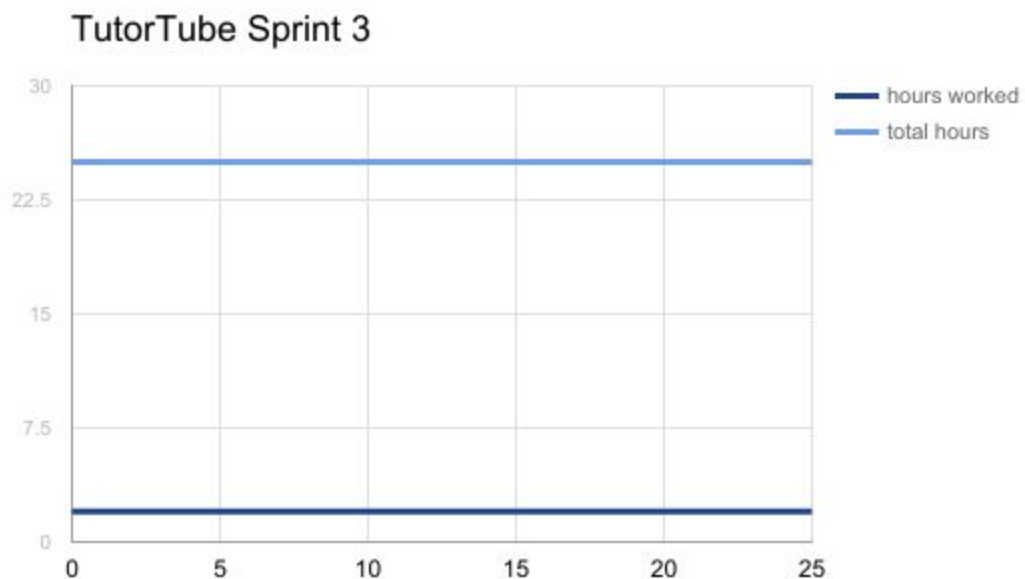

Haley Emerson: user story 3, separate posts by categories

Lisa Durand: user story 3, make a logo; user story 3, style using css and html

Vanessa Putnam: user story 1, update database so comments can be children of  
other comments

Aishni Parab: user story 2, research code online that could be helpful

### Initial BurnUp Chart:

### Initial Scrum Board:

User Stories for TutorTube Sprint 3	To Do	In Progress	Done
As a user I want to upload video or text responses so that I can help other students in my class understand the material	<ul style="list-style-type: none"><li>-create hyperlinks to posts and responses to each post</li><li>-make a new html and controller for comments to posts</li><li>-update database so comments can be children of other comments</li></ul>	-	
As a developer I want to be able to implement a chat room so that small group discussions can exist	<ul style="list-style-type: none"><li>-research code online that could be helpful</li></ul>		
As a developer I want to be able to style my website so that it is understandable and easy to use	<ul style="list-style-type: none"><li>-style using css and html</li><li>-separate posts by categories</li></ul>	<ul style="list-style-type: none"><li>-make a logo</li></ul>	

### Scrum Times:

Tuesdays and Thursdays, meet from 5 to 7pm during which we hold 15 minute scrum meetings.

TA/tutor arranged time is Mondays at 12pm
